

Schwinn 810: Why did my treadmill stop during a workout?

ID: 12414.1

Follow this troubleshooting guide to help resolve issues involving workouts stopping suddenly or your Schwinn 810 Treadmill shutting itself off.

Some common complaints may include:

- Belt stops during workout
- Treadmill turns off on its own
- Treadmill stops suddenly
- Workout stopped without input

Follow these steps to troubleshoot the issue

1. If the display remains on after your treadmill shuts off or quits the workout, look for an error message on the screen that reads "+SAFETY KEY." If this message is present, remove the safety key and reinsert it [\[12414.A\]](#). If this does not resolve the issue, continue troubleshooting here: [Schwinn 810: Why is the belt not moving or stopping on its own?](#)
2. If the display is dark, check to see if a breaker is tripped at your electrical panel. If the breaker is tripped, use a different outlet - your treadmill may not work with some older GFI/AFI or if the circuits are improperly grounded [\[12414.B\]](#). If you are using an extension cord, plug your treadmill directly into an outlet [\[12414.C\]](#). If the issue persists, consult an electrician [\[12414.D\]](#).
3. If the electrical panel breaker is not tripped, check the circuit breaker on your treadmill. The breaker is located in the front next to the main power switch. If it is tripped, reset the breaker by pushing it in [\[12414.E\]](#). If it continues to trip, [order an AC Inlet Service Kit \[12414.F\]](#).
4. If the issue persists, inspect the entire length of the power cord for damage. Look for cuts, crimps, or exposed wire on the cord. Inspect the connections for bends or other damage as well. If damage is present, [order a Power Cord \[12414.G\]](#).

Need to order replacement parts?

1 Customer Care Contact Information

Please contact Customer Care at 1-800-605-3369 for additional help or to order replacement parts. Some replacement parts may also be available for purchase [online here](#). A list of part numbers referenced within this guide can be located at the bottom of this page.

Customer Care - Hours of Operation:
Monday - Friday 6:00am - 5:00pm PST

The replacement part will be provided to you at no cost assuming your machine meets the warranty eligibility requirements. A Customer Care Agent will be able to assess your current warranty eligibility and provide you with your options.
Please note that if you did not purchase your machine directly from BowFlex, Schwinn, or Nautilus, we will need a copy of your purchase receipt in order to register your machine for warranty.

2 Parts Reference Table

<i>Part Description</i>	<i>Part SKU</i>
AC Inlet Service Kit	8023383
Power Cord	8005317

3 EAF Policy

EAF - Issues requiring Special Handling

ATTENTION: If the customer complains of any of the following, transfer the call to a Senior Rep in the **CS ESCALATION** queue.

- **NOTE THE CUSTOMER FILE:** "Transferred customer to Senior Rep/Sup due to escalated issue."

NOTE: This process is **ONLY** for Treadmills and TreadClimbers.

NOTE: This does not apply to second-hand purchases or unsupported products. The customer record must have a valid POP and serial number.

***Visible Smoke coming from machine:**

- Be sure to confirm specific color of smoke (blue, black, or white).
- NOTE: If complaint is a hot/smoky odor/smell, proceed with troubleshooting.

***Sparks or flames coming from their machine outside of the drive motor**

- (sparks from the brushes inside the drive motor are normal)

***Machine accelerates quickly (runs away) without user input/keypress**

***Belt moves without safety key in place**

***Strong Continuous Electric shock from machine frame** (beyond normal static shock, which is a single defined event and builds up prior to discharge)

***Belt stops suddenly without an error code, without user input, or the safety key being pulled.** Console remains on or working.

4 Contact Tech Team / Advanced Troubleshooting (TM/TC)

If the issue was not resolved in the steps listed, contact the Tech Team or send an Advanced Troubleshooting case.

Submit a Case with case type **Advanced Troubleshooting**
