

MY14/17 Treadmills - CHECK FIRMWARE VERSION

"Procedure 2"

Nautilus T614 / T616 / T618

Schwinn 830 / 870 / Journey 8.0 / 8.5

1. From the **WELCOME** screen, hold down the **PAUSE/STOP** button and **RIGHT** arrow button together for 3 seconds to enter **Console Setup** mode. Console will beep and display the **DATE**.

2. Repeatedly push the **OK** button until the Console displays **TOTAL RUN HOURS**. Record the numbers shown for troubleshooting.

3. Hold down the **PAUSE/STOP** button and **RIGHT** arrow button together for 3 seconds

4. The **Console Firmware** version is displayed. Record the last three digits (letter and two numbers) for troubleshooting.

5. Push the **PAUSE/STOP** button to return to **WELCOME** screen.
