

MY14/17 Treadmills - CALIBRATE MCB

"Procedure 4"

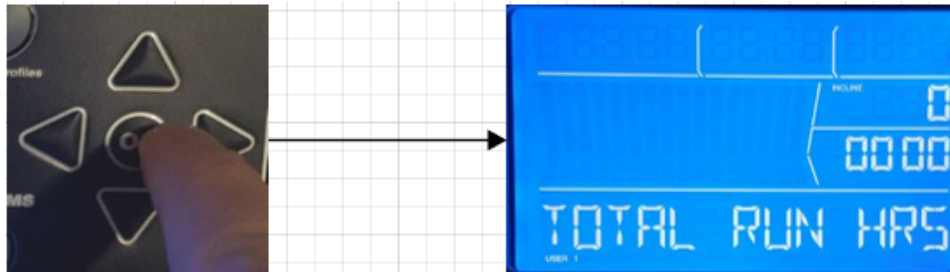

Nautilus T616 / T618

Schwinn 830 / 870 / Journey 8.0 / 8.5

1. From the **WELCOME** screen, push and hold the **PAUSE/STOP** and **RIGHT** arrow buttons simultaneously for 3 seconds to enter the **Console Setup Mode**. Console will beep and display the **DATE**.

2. Repeatedly push the **OK** button until the Console displays **TOTAL RUN HRS**.

3. Hold down the **PAUSE/STOP** button and **RIGHT** arrow button together for 3 seconds until the Console displays **ENTR MFG TST**.

4. Press the **DOWN** arrow button 14 times until the screen reads **ENTR MCB CLB**. **Important!** Do **NOT** select **ENTR MCB TST**
5. Press **OK**. Screen will display **MCB CALIB**
6. With the area clear, press **OK** again. Screen will display **RESET MCB, SET PARMS**, then finally **CALIBRATE**. At this time, the belt will start moving and the incline will raise. Be sure not to touch or allow anyone else to touch the machine while calibration is occurring.
7. Screen will display **WAIT** followed by changing letters and numbers. The belt will quickly stop while the incline continues to change. This takes over a minute to complete.
8. Screen will display **DONE** followed by letters and/or numbers. Press **PAUSE/STOP** until you reach the home/welcome screen
9. Power cycle your machine to complete calibration
